CEREMONY AUDIO*

We use a combination of hidden microphones that allow us to ensure every word said will be heard by every guest! This service covers the additional time and equipment needed to execute the ceremony anywhere at any venue.

INTELLIGENT LIGHTING*

Using elegant glow column totems with moving spot/beam lighting fixtures, professional haze equipment (venue permitting) and Soundswitch lighting control software. We create a magical lighting effect synced and in rhythm with the music. Think spot lighting during your big entrance or custom light shows for your favorite songs.

VENUE UP-LIGHTING*

You put in a lot of thought into your wedding colors. Allow us to light up the walls of your venue with your wedding colors utilizing up lighting powered by Soundswitch. This smart lighting system allows us to wash the entire venue in your desired colors or change the atmosphere subtly for special formalities.

**Included in our standard wedding package.*
